Dear Parents/Guardian,

A positive climate is an essential component of a successful and effective school. It is the shared beliefs, values and attitudes that shape interactions between students, teachers, and administrators, while setting the parameters of acceptable behavior and norms for the school. The Webutuck Central School District is asking parents, staff, and students for feedback on a variety of topics. The results will help school leaders better understand how to respond to their stakeholders' needs, improving their school environment, academic outcomes, and family involvement.

We ask that you take a few minutes out of your busy schedule to complete this School Climate survey.
