October 6, 2021

Dear Parents,

Quarterly, the District performs mandatory testing of our domestic water. Based upon our latest test, preliminary results have identified a higher than normal reading of Perfluorooctane Sulfonic Acid (PFOS). We are working closely with the Dutchess County Department Behavioral and Community Health to conduct a more thorough test to determine if the results are valid or just an error in the testing. In an **abundance of caution**, the District is turning off all domestic water sources and providing bottled water to our students and our kitchen for any cooking until these tests can be completed. As we know more, we will update accordingly. Thank you for your understanding and patience. If you have any questions, please feel free to contact me at 845-373-4100 or raymond.castellani@webutuck.org.

Sincerely,

Raymond Castellani
Superintendent
