My Child Traveled out of State

“Can My Child Go to School Today?”

We want your child/children to come to school to learn. We also want your child/children to be safe and healthy. In order to do this, we have to work together.

For any student(s) that has traveled to a noncontiguous state and stayed more than 24 hours, parent/guardians must work with your child/children to complete PLAN A or PLAN B

PLAN A
- the school must be immediately notified; and
- the student (and siblings) must quarantine for a minimum of 10 days

OR

PLAN B
For a student that was in a non-contiguous state they:

- must quarantine;
- obtain a COVID-19 test within 3 days of departure prior to arrival into New York State;
- on day 4 of their quarantine, the traveler must obtain another COVID test. If both tests come back negative, the traveler may exit quarantine.
- dates of travel, name of state(s) visited and both tests showing negative results must be provided to the school’s Health Office before returning.
For a student that was in a non-contiguous state for **less than 24 hours**, upon returning they:

- do not need quarantine upon arrival in New York State;
- however, must fill out New York State’s traveler form
  

- upon entry into New York State take a COVID diagnostic test 4 days after their arrival home
- date of travel, name of state(s) visited and test showing a negative result must be provided to the school’s Health Office before returning.
